

Definitions (4)

- ▶ Data subject: Individual sharing her personal data
- ▶ Personal data: Information relating to an **identifiable** data subject
- ▶ Processing: Any operations (automated or not) performed on personal data
- ▶ Controller: Entity defining the purposes and means of data collection
- ▶ Processor: Entity processing the data on the controller's behalf
- ▶ Supervisory authority: Independent public authority established in each EU member state responsible for monitoring application of GDPR

Processing Personal Data

- ▶ Requirement: The data subject has given consent for specific purposes (6)*
 - ▶ Collected data (5): limited to what is necessary, accurate/up-to-date, kept no longer than necessary, secured appropriately
 - ▶ Consent (7): requested in clear plain language, can be easily withdrawn at any time, must be given freely (is a service conditional on consent to unnecessary data processing?)
- ▶ Controller must inform the subject about the nature, scope and purpose of processing and the data subject's rights (13)

*Data may be collected under five other circumstances, consent is the the most relevant
